J111 World Championship

June 15th thru June 19th

Tuckernuck, LLC

With over 40 years' experience as Captains, Chefs, Stewardesses, Day Workers and Charter Brokers, we have satisfied the demands of not only owners, but crews and vendors. Not from behind a desk, but with tens of thousands of ocean miles, countless refits, charters and successful crew retention-first hand. We believe in maintaining the high standards set by our years in the industry. We recognize that often owners only have a few days to enjoy their yachts and it's our job to make that the best experience possible to facilitate the love of the marine environment.

We **are not** a permanent crew placement company. We provide professional freelance captains, chefs, stewardesses and day workers. We certainly are not trying to replace permanent crew, they are vital and important to an active program. The reality is if you don't use your boat more than 12 weeks out of the year, we may be a cost effective measure. Our roster of freelance crew loves the opportunity to travel to all corners of the world keeping their skills sharp and ready for the next adventure. They also enjoy less time on the dock! And they are our biggest assets. All crew is screened, resume reviewed and personally interviewed.

With our Yacht Management Program, we allow your captain to get away from the navigation station and paperwork, and get to doing what they do best – taking care of your yacht.

We offer seasonal programs as well as a la carte choices to meet every yacht owner's needs, big or small.

After years of networking running sailboats, race programs and power boats, we have gathered a roster of trusted co-workers, mentors, owners, vendors and industry experts. This is the foundation of our company.

Our love of being on the water is second only to seeing our customers enjoying their time on the water, not on the dock.

Sincerely,
Jared and Andrea Lazor

TUCKERNUCK, LLC

J111 Worlds 2015

(Page 1 of 2)

This agreement is made by and between, Tuckernuck, LLC (Yacht Management Co) and _____
